Practical classes should be held properly

Very very good .. keep going.. all the best

Field visit with extra activities is required

no suggestion our collage is perfect .....

Co circular activities like dance should have timing for proper practice and each information should be equally given to each student..each department should get chance to perform

Good

All good..

Everything is Ok.

Hostel facility should be improved

Nothing

Work can be done upon guest lectures and job opportunities and more field work in botany

No soccer ground. Every college does have it.

Noo

As such overall everything is good but need to work on hostel and mess

Pls don't judge students Calibre according to attendance and pls if attendance is maintaining then guest lecture attendance shd also considered

Hostel food can be improved

Hostel facilities are good but I really want to mention that pls make something special in special occasion... Pls cook something tasty on 22 jan

Best Teacher's

Everything was good till 2017 to 2019 but the quality and facility of the college towards students has decrease with years . overall college is good with educational purposes. Overall good college to gain knowledge from.

Lab equipments needs an upgrade asap !

More Interactive sessions should be there

Exam on time

Nil

Everything is good ...no suggestions from me

Give more important in personality development

Naaa

Teacher can also explain course in both language hindi, english . That will be more effective for students they can connect with teachers . Thank you

Sports equipments usage, A healthy relationship between teachers and students, Practical based learning

We need AC in summer

Everything is perfect except toilet hygiene and mess food

saturday must be class off

Public transportation is not good ,and hostel,s mess food is not good

nothing

Everything of college is good 😊

Excellent

Keep it up!

Follow up actions based on evaluations should be taken up to help students understand better what they have learned and what they haven't. It has never been done so it will be a new thing which benefits the students and the college. Second is "some" teachers refuse to reply students even on really important topics and when approached personally, is busy. A person becomes a teacher because they love children and enjoys teaching. Please teach us instead of ignoring us. We want to learn and give our best as well..truly.

Please improve the drinking water quality

I play games many times and teachers most prank with students

I would suggest you to please add one more pattern i.e. hoodie which would be more comfortable for us in winter bcz coat is not good enough

College should look after the well being of hostlers.

Hostel facility should be improved more

There is nothing to suggest because every thing is well

Shots Breaks during the classes

A

According to fees admission you can't understand the students family situation.. & forcing students to submit there fees extra charges then you submit our exam form etc.. every student are not able to submit fees in a particular time period... You must try to understand each & every situation..& support them

Improve mess food

Mess food quality should increase

Hostel Mess food quality is low it should be examined.

Hostel and mess is the worst. Like they are just making food for formality. Taste is worst. Hostel conditions are also not good Specially boys hostel.
